

CAUTION: Max 5 Amps 12/24VDC (low voltage). Use only with Class 2 power supply. Indoor dry location use.

ATTENTION: Utiliser seulement avec la classe 2 bloc d'alimentation.

For use only with LED World's type A (IP20) 12VDC and 24VDC 10mm wide LED Flex Strips. Not to be used with Type B or C (Strips that have covers or coatings).

Important Note: Check the Polarity and make sure that connector contact points are directly over (and centered) the LED Flex Strip connector pads. Do not connect LED strips at soldered contact points.
